

Shehani Kavindi

Software Engineer Undergraduate

ABOUT ME

Software Engineering undergraduate with full-stack experience across mobile and web — React Native, PHP/MySQL, and Java/JSP. Comfortable building responsive UIs, designing databases, and implementing REST APIs with Jersey and Hibernate. Delivered multiple end-to-end projects independently and in teams, with a focus on clean architecture and documentation.

Padukka, Colombo

EDUCATION

Birmingham City University

BSc (Hons) in Software Engineering
2024 - present

IMBS Green Campus

Diploma in Information Technology
2021 - 2022

GCE Advanced Level (2023)

Physical Science Stream — 3S

GCE Ordinary Level (2020)

6A, 2B, 1C

SOFT SKILLS

- Teamwork & Collaboration
- Problem-Solving
- Attention to Detail
- Adaptability
- Communication
- Self-Motivated / Independent Learner

TECHNICAL SKILLS

- **Programming:** Java, PHP, JavaScript, TypeScript
- **Mobile:** React Native, Expo (Expo Router, AsyncStorage, expo-notifications)
- **Web:** HTML, CSS, vanilla JS, Bootstrap, Tailwind
- **Database:** MySQL, database design (ERD, normalization)
- **Tools:** Git, GitHub, Canva
- **Backend & Frameworks:** Laravel, Jersey JAX-RS, Hibernate ORM, Apache Tomcat, Maven
- **Office & Productivity:** Microsoft Word, Excel, PowerPoint, Google Sheets

LANGUAGES

- Sinhala
- English

PROJECTS

The Furniture Store - e-commerce app with customer storefront + admin workspace

- **Tech:** Java 11, Jersey (JAX-RS), Hibernate ORM, MySQL, embedded Tomcat, JUnit 5
- Built a RESTful JSON API with advanced product search (keywords, category, price range, pagination), cart, wishlist, and PayHere payment integration
- Implemented secure auth: BCrypt password hashing, signed HTTP-only remember-me cookies, legacy-password migration
- Admin side covers inventory, order management, and sales/CSV reporting; backed by an ERD and documented manual test cases
- [🔗 https://github.com/ShehaniKavindi/The-Furniture-Store.git](https://github.com/ShehaniKavindi/The-Furniture-Store.git)

CampusHub - Campus community platform for students & event management

- **Tech:** PHP (procedural, MySQLi), MySQL, Bootstrap, vanilla JS, PHPMailer
- Built OTP-based email verification and forgot-password flow, plus student event registration, photo galleries, and announcements feed
- Built a full admin dashboard: student/event/announcement management, registration tracking, contact-form inbox, org settings
- Co-developed with a teammate; structured backend with dedicated process/ handlers for all CRUD operations
- [🔗 https://github.com/shehanikavindi-ui/CampusHub](https://github.com/shehanikavindi-ui/CampusHub)

Hazy Days Tracker - Mobile habit-tracking app with calendar logging and streaks

- **Tech:** React Native, TypeScript, Expo (SDK 55) + Expo Router, AsyncStorage, expo-notifications, react-native-calendars
- Built calendar-based daily logging with color-coded entries, computed streaks, and monthly stats
- Implemented local data persistence and a JSON export/import backup flow via the native share sheet
- Set up scheduled local notifications with platform-specific handling (Expo Go vs. dev build detection on Android)
- Used React Context for state management across settings, entries, and profile
- [🔗 https://github.com/ShehaniKavindi/Hazy-Days-Tracker.git](https://github.com/ShehaniKavindi/Hazy-Days-Tracker.git)

To Do List - Task management mobile app with a custom aesthetic UI

- **Tech:** React Native, Expo, TypeScript, AsyncStorage
- Built task add/complete/delete flows with a modal-based input system and delete confirmation dialog
- Implemented persistent local storage so tasks survive app restarts
- Designed a custom soft-pink UI/UX from scratch rather than using default styling
- [🔗 https://github.com/ShehaniKavindi/ToDoList](https://github.com/ShehaniKavindi/ToDoList)

BookVerse - Online library portal (catalogue, reservations, borrowing history)

- **Tech:** Java 11, JSP, Servlet API, JSTL, Apache Tomcat (embedded), Maven, Bootstrap 5
- Built MVC architecture with a front-controller servlet, custom JSP tags, and reusable tag files for catalogue cards
- Implemented member features (search/filter catalogue, reservations, borrowing history) and a staff admin dashboard for managing books, members, and announcements
- Used session-based auth with a "Remember Me" cookie and application-scope shared data store
